PROJECTS

⊕ More projects and UX study cases available on my personal website
KREAMER
- KREAMER is a phone app that works as a virtual coffee shop where users can pick a local coffee shop and listen to a soundtrack that the coffee shop manager uploaded while looking at a picture of the coffee shop. The app also offers chat and taptalk features with active friends.

EXIBT - XCdoe, Swift
- EXIBT is an iOS application that is mainly made for local artists where they can showcase their artwork and support each other as well as find different opportunities.
- The application consists of four main tabs. The first tab is the explore tab (Following and trending), the second is for uploading the artwork, the third is the opportunities page and the fourth is a profile page.

ACTIVITIES AND VOLUNTEER

Liberal Party of Canada— Youth Council Member   Nov 2019 - Nov 2020
- Developing an "intro to programming workshop" as my Liberal Youth Council project, for high school students.

Vanier Robotics — Team Lead   August 2018 - February 2020
- Lead designing the robot to perform its tasks in the most efficient way.
- We were able to win awards like CRC Design Competition - 1st place and CRC Programming Competition Div 1 - 2nd place
